

ABET

The term **ABET** refers to Adult Basic Education and Training and refers to education up to NQF 4 . **ABET** refers to both literacy and numeracy.

ABET is a national priority and one of LGSETA key strategic priority areas to address in Local Government. We all need to work towards ensuring that all Municipal workers become functional numerate and literate. This however needs Municipalities need to make the commitment by allowing workers some time off for studying and providing them with the necessary support and encouragement.

The benefits of investing in ABET normally far exceeds expectations!!

The gratitude from learners to employers for facilitating the learning can become very emotional for some, in addition productivity increase as learners aspire to achieve the next level in their careers.

Funding for ABET Programmes

The LGSETA make funds available to Municipalities interested in facilitating ABET programmes.

How do you apply for Grant funding?

1. Ensure that the programme is contained in Workplace skills plan.
2. Fill in Declaration of intent (DoI)
3. Submit with WSP/ATR or before 30 September.
